WHAT ORGONE ENERGY AND SHUNGITE CAN DO FOR YOU!

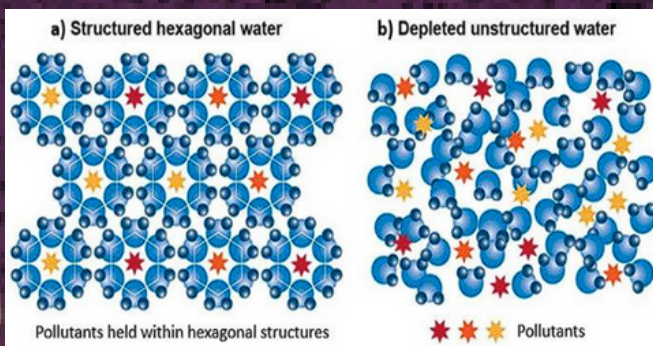

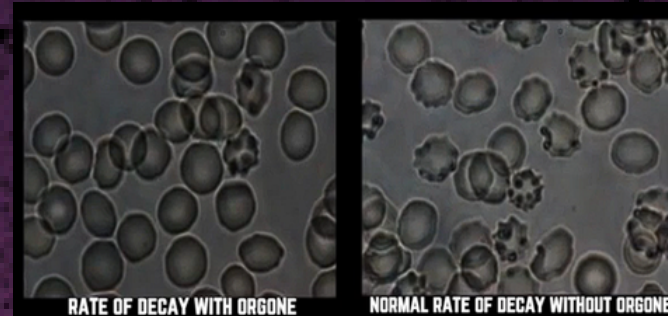

BETTER SLEEP

EMF RADIATION IS PART OF THE REASON WHY WE ARE NOT SLEEPING AS WELL AS WE SHOULD. LACK OF SLEEP CAUSES HUGE HEALTH PROBLEMS. ORGONE ENERGY AND SHUNGITE HELPS YOUR BODY TO SLEEP MORE DEEPLY, THUS STRENGTHENING YOUR IMMUNE SYSTEM. WITH OUR SLEEPING PODS YOU CAN SLEEP WHILE GROUNDED FOR THE BEST EFFECT.

BETTER BLOOD

AN ORGONE ENERGY FIELD PRESERVES THE LIFEFORCE OF THE BLOOD AND SLOWS DOWN THE RATE OF DECAY. MAKING YOU FEEL BETTER, GIVING YOU MORE ENERGY AND SLOWING THE AGING PROCESS. AS SHOWN BY THE REICH BLOOD TEST DONE BY THE HERICLITUS LAB AT THE INSTITUTE OF ORGONOMY.

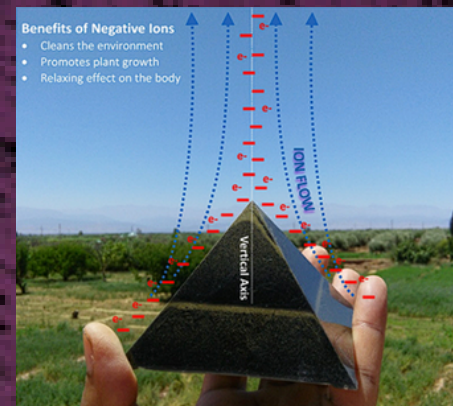

BETTER FOOD AND WATER

AN ORGONE ENERGY AND SHUNGITE FIELD CHANGES THE MOLECULAR STRUCTURE OF WATER AND CREATES “STRUCTURED WATER” WHICH IS VERY HEALING FOR THE BODY. IN ADDITION, AN ORGONE ENERGY EXTENDS THE SHELF LIFE AND PRESERVES YOUR ORGANIC FOODS FOR LONGER PERIODS OF TIME.

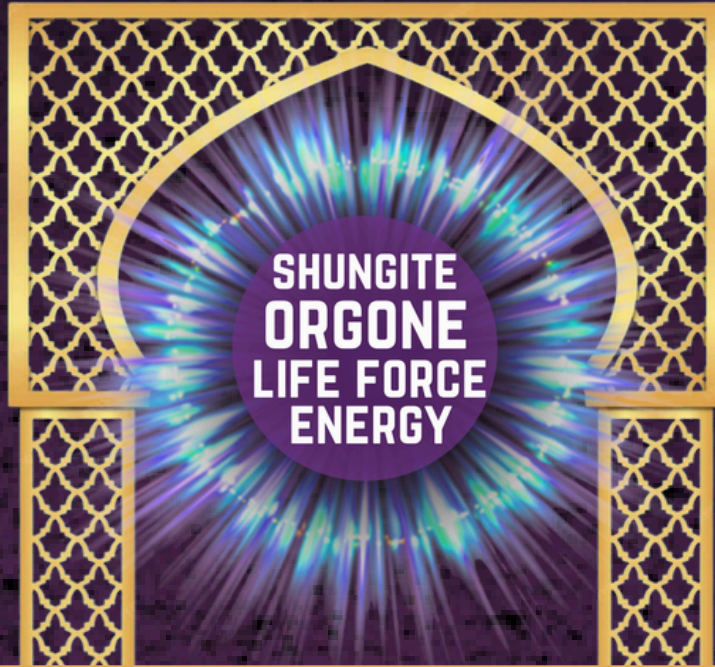

BETTER AIR AND GROUND

ORGONE ENERGY AND SHUNGITE COMPOSITES ARE NATURAL PASSIVE NEGATIVE ION EMITTERS. NEGATIVE IONS PUT INTO THE ENVIRONMENT HELP TO REPEL AND CLEAN UP TOXIC CHEMTRAILS AROUND YOUR PROPERTY AND HOME. THESE NATURAL DEVICES HAVE A GROUNDING EFFECT HELPING YOU TO EXPERIENCE ALL THE BENEFITS THAT GROUNDING OFFERS TO TREAT THE ELECTRICAL CHARGE AROUND YOUR CELLS IMPROVING YOUR OVERALL HEALTH AND WELLBEING.

BETTER FARMS

ORGONE ENERGY NOT ONLY PROTECTS YOUR PLANTS, BUT CREATES BETTER SEED GERMINATION AS SHOWN IN A UNIVERSITY OF PENNSYLVANIA STUDY, BIGGER PLANTS WITH BIGGER YIELDS AND PROTECTS YOUR ANIMALS TOO FOR HEALTHY DAIRY, POULTRY AND LIVESTOCK AND BEE POLLINATION

WHAT IS ORGONE ENERGY?

OUR PRODUCTS ARE ALL HANDMADE BY US IN OUR WORKSHOP IN MOROCCO. THESE DEVICES ARE A COMPOSITE OF SHUNGITE, STEEL, IRON OXIDE AND BRASS POWDERS ALL ENCASED IN AN EPOXY RESIN. WHEN THE RESIN CURES IT CREATES A PIEZOELECTRIC EFFECT THAT EMITS A FIELD OF HEALTHY LIFE PRESERVING ENERGY CALLED ORGONE.

THIS ENERGY FIELD WAS DISCOVERED AND STUDIED BY LATE SCIENTIST DR. WILHELM REICH AND THERE ARE FASCINATING STUDIES AROUND ORGONE ENERGY THAT WE'VE INCLUDED IN OUR RESEARCH DOCUMENTATION SECTION OF OUR WEBSITE. WHEN USED IN YOUR ENVIRONMENT, THESE DEVICES TRANSFORM THE HARMFUL ENERGY GIVEN OFF BY ELECTROMAGNETIC FREQUENCIES OR EMF'S THAT COME FROM 5G, YOUR CELL PHONES, WI-FI, AND ELECTRONIC DEVICES, INTO HEALTHY LIFE PRESERVING ENERGY.

EXPERIENCE THE BENEFITS:

- PAIN RELIEF
- BETTER SLEEP
- PEACEFUL RELAXING ENVIRONMENT
- PRESERVES BLOOD SAMPLES FOR LONGER PERIODS OF TIME
- PRESERVING FOOD FOR LONGER PERIODS OF TIME
- BETTER SEED GERMINATION IN PLANTS
- BIGGER YIELDS IN PLANTS

DANGERS OF EMF AND 5G

Compelling Evidence for Eight Distinct Types of Great Harm Caused by Electromagnetic Field (EMF) Exposures and the Mechanism that Causes Them

This 127-page eBook is a powerful summary of the science that telecoms don't want us to know, because it scientifically demonstrates, beyond any reasonable doubt, the biologically harmful effect of 5G deployments and wireless radiation in general.

Includes citations to 139 scientific research papers.

EFFECTS OF EMF

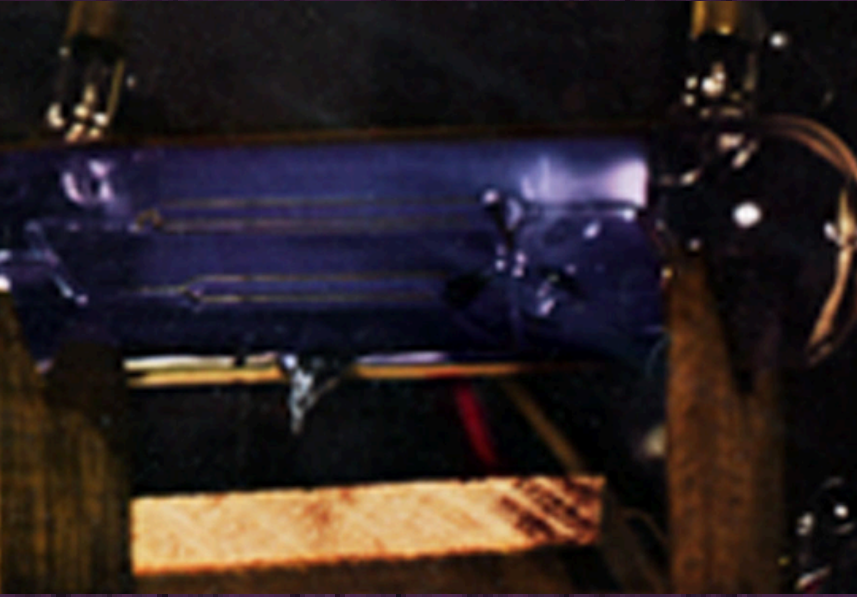

- Attack our nervous systems including our brains leading to widespread neurological/neuropsychiatric effects and possibly many other effects.
- Attack our endocrine (that is hormonal) systems. In this context, the main things that make us functionally different from single celled creatures are our nervous system and our endocrine systems
- Produce oxidative stress and free radical damage, which have central roles in essentially all chronic diseases.
- Attack the DNA of our cells, producing single strand and double strand breaks in cellular DNA and oxidized bases in our cellular DNA. These in turn produce cancer and also mutations in germ line cells which produce mutations in future generations.
- Produce elevated levels of apoptosis (programmed cell death), events especially important in causing both neurodegenerative diseases and infertility.
- Lower male and female fertility, lower sex hormones, lower libido and increased levels of spontaneous abortion and, as already stated, attack the DNA in sperm cells.
- Produce excessive intracellular calcium $[Ca^{2+}]_i$ and excessive calcium signaling.
- Attack the cells of our bodies to cause cancer. Such attacks are thought to act via 15 different mechanisms during cancer causation.
- Therapeutic effects including stimulation of bone growth.
- Cataract formation (previously thought to be thermal, now known not to be).
- Breakdown of the blood-brain barrier.
- Melatonin depletion and sleep disruption

WILHELM REICH ORGONE ENERGY

THE 1ST PHOTOGRAPHIC DEPICTION OF THE BLUE COLOR OF AN EXCITED ORGONE FIELD

In the 1930's during a series of experiments, the late Dr. Wilhelm Reich discovered that living samples placed within containers made from alternating layers of steel and non-conductive organic material were able to harness healthy 'cosmic energy' from the environment. Fast-forward to today, where instead of using sheets of steel and plastic we use a composite made from a blend of; iron oxide, steel, brass, shungite and crystal powders encased in epoxy resin. The end result is a harmonizer that is able to transform the harmful wireless fields from; cell towers, smart meters, smartphones, internet router and your television, into more beneficial energy for you and your plants and pets.

The effects of this scientific phenomenon were replicated and well documented in studies done by the University of Pennsylvania and the Heraclitus Microscopic research laboratory. In addition there are fascinating studies done by Alexander Golod around pyramid shapes that show striking similarities to orgone energy.

THE POWER OF SHUNGITE

WE USE HIGH QUALITY SHUNGITE POWDER IN ALL OF OUR ORGONE PRODUCTS

Shungite is a very rare stone that comes from a meteor that can only be found in Karelia Russia. This mineral has some incredible scientific properties that can be used to improve your health and environment. It is the only known natural material that contains fullerenes which are powerful antioxidants.

Fullerenes are a globular hollow molecule consisting of several dozens of carbon atoms. When fullerenes, a special molecular formation, were discovered in shungite a few decades ago, it became a sensation. Fullerenes, getting in our body, behave as the most powerful and most long-acting antioxidant as a means to fight free radicals. Today, doctors have great hopes for fullerenes. Shungite is a powerful stone to shield you from the electromagnetic radiation given off by electrical equipment, including computers, mobile phones, microwaves and televisions.

It also has an action that heals those who have developed a sensitivity to man-made electrical devices. It also assists those who are sensitive to internet and cell phone towers, as well as to computer emanations and wi-fi emissions. Taking into account its healing properties, shungite is successfully being used in medicine, ecology, agriculture, water supply, metallurgy, energetics, chemical and construction industries.

“Shungite cures, rescues, purifies, heals, protects, normalizes, restores and even stimulates the growth. Amazing rock: it kills and devours anything that harms people and other living beings, and concentrates and restores all that is good. The scholars who have studied shungite in one voice declare, it is a miracle! “– From the book by A. Doronina “Shungite – the stone-savior”

ORGONE ENERGY THE FOUNTAIN OF YOUTH

RATE OF DECAY WITH ORGONE

NORMAL RATE OF DECAY WITHOUT ORGONE

This experiment was conducted by Despina Malkotsi who is in charge of 'Heraclitus' Microscopic Research Laboratory. Under strict scientific procedures, the experiment calls for a laboratory examination to verify or refute the claim that orgone energizes a person's red blood cells, thus preserving their vital state longer than in ambient conditions. This blood test, called the "Reich Blood Test" or RBT can detect biopathic situations that are active in the organism without arriving to a specific diagnosis. The RBT is based on the direct observation of the blood immediately after its extraction from the body's vessels, and without biochemical processing.

According to Dr. Reich, as soon as the red blood cells leave the blood vessels, they begin disintegrating into cysts (the decay process begins). Reich called these cysts 'bions.' He observed that bions pulsed and were motile. Intriguingly, in healthy organisms they gave off an intense blue light. Classic Biology also describes bions as characteristic protrusions of the cell membrane. This phenomenon was called 'beebbling.'

SEE THE ORGONE FIELD IN THE ICE TEST

One way you can measure the orgone field to see if it is present from our products is through the ice test. You can see the vortex of energy that the orgonite charge plates create as they structure your water. In this test, we freeze water in a glass on top of a charge plate, and the energy pattern formed by the orgonite which would normally be invisible to the naked eye, suddenly becomes visible in the frozen pattern of the ice. This picture above left is one we took of an ice test on our charge plates where you can clearly see the tornado shape vortex in the middle of the glass. Also this forms signature ice crystals that shoot out in beautiful spears which we've put another picture above right.

ORGONE AND STRUCTURED WATER

a) Structured hexagonal water

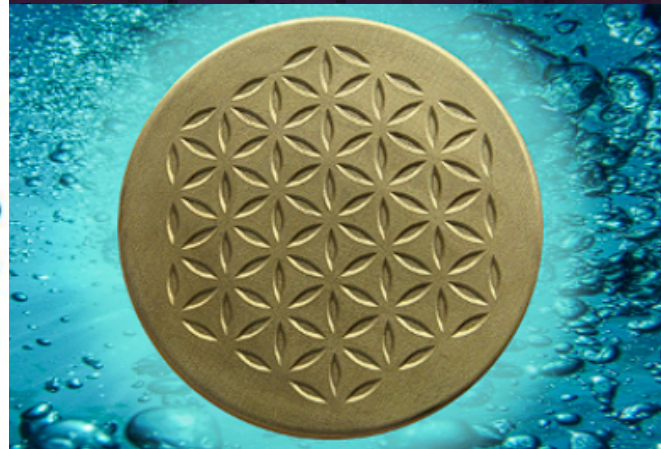

b) Depleted unstructured water

Pollutants held within hexagonal structures

Pollutants

**OUR BODIES ARE FILLED WITH STRUCTURED WATER NATURALLY,
SO DRINKING MORE STRUCTURED WATER IS LIKE RECHARGING THE LIQUID BATTERY OF THE BODY.
THE RESULT: YOU FEEL GREAT WHEN YOU DRINK STRUCTURED WATER!**

SET YOUR DRINKS ON TOP OF OUR CHARGE PLATES FOR 45 MINUTES. THE ORGONE FIELD WILL STRUCTURE YOUR WATER.

Structured water is a molecular arrangement of water molecules that are organized in hexagonal structures. These hexagonal structures love to attach to hydrophilic (water loving) surfaces (impurities in the water, living cellular walls, etc.). Like ice, these hexagonal water molecules join to form larger single layer sheets, except these sheets are flexible and move independently. Did you know that the majority of water in your body is structured?

When water is spun through a vortex, some water molecules separate into hydrogen and oxygen. This freed oxygen is mixed up uniformly with the oxygen already present in the water. Since oxygen is itself hydrophilic, hexagonal sheets of structured water begin to grow outward from it, layer by layer.

However, structured water doesn't just consist of the hexagonal sheets of water molecules, but also the water immediately surrounding them! As the hexagonal layers grow, protons are ejected into the nearby water. As a result an electrical voltage exists between the structured water and the water surrounding it. In other words, structured water stores energy, much like a battery.

You may be asking, "If structured water is a battery, what charges it?" Dr. Pollack discovered that structured water becomes electrically polarized by absorbing radiant energy. Both light waves and infrared waves from the environment charge structured water with energy.

The scalar vortex (torsion field) that is emitted from orgone products passively structures water and gives the water structure and energy. The 'information' of the field is imprinted in the water and can be captured in an ice test above the charge plate (seen above). The energy funnel can be clearly seen with frozen 'filaments' converging toward the center and vertical axis. As the water molecules forms the vortex structure, it becomes electrically polarized.

The research of structured water is currently pioneered by the work of Dr. Pollack of the University of Washington in his book "The Fourth Phase of Water" (published 2013).

PENN STATE UNIVERSITY ORGONE STUDY

**A Preliminary Study of the Effects of Reich's Orgone Accumulator on Oats
Seed Sprouting and the Structure of Water**

**1 Smolensk State Medical Academy, 28 Krupskaya St., Smolensk, Russia,

This paper presents a study of the influence of Reich's orgone accumulator (ORAC) on water structure, with the aim to explain the effect of ORAC on biological entities. We have used seed germination to quantify the effect of ORAC on biological substances. To study the effect of ORAC on water structure we have analyzed 168 water samples, half of which were controls. We analyzed the samples using the capillary dilatometric method and found that the amount of structured water rose significantly if in samples that were kept in ORAC. The structured water has greater biological activity, which can explain a positive effect of Reich's accumulator on the living subjects.

Table 1 presents the effect of the orgone accumulator on oat seeds sprouting. As seen from Table 1, the orgone-charged seeds show greater biological activity than the seeds of the control group. The number of the sprouted seeds in the experimental group was 2.3 times higher than that of the controls; the average sprout length in the experimental group exceeds that in the control by 1.2, and the average root length by 1.3. The average length of the sprouts and number of roots in both groups did not differ significantly. Figure 3 demonstrates the difference in germination between the intact and "orgone-charged" seeds.

GARDENING WITH ORGONE ENERGY

Our flagship community garden package will not only provide EMF protection for the fruits, vegetables, and crops on your garden plot, but also help reverse the harmful effects of EMF and airborne toxins in the local environment! In addition to eight Orgonite Garden Pucks, the community garden set comes with four Shungite Orgonite pyramids that can be used to both grid large garden plots AND dissipate the chemtrails overhead. Orgonite are passive ionizers that help grow strong, healthy fruits, vegetables, and crops. Ours are made from a blend of quartz, Shungite, brass and iron oxide powders encased in an epoxy resin. Electronic pollution in the environment caused by things such as cell towers, wifi, and other wireless radiation doesn't just affect human beings and animals, but also all plant life. High frequency fields can stunt growth, cause cell damage or kill seedlings. Having orgonite in your flower pots and the garden transforms and provides a shield of protection, allowing your plant to grow healthier and stronger.

Orgone is a word used to describe the life-force energy which permeates all of nature and living beings as defined by the late Dr. Wilhelm Reich, its discoverer. Orgonite is a natural technology created to emit neutralizing orgone energy that can be measured as negative ions in the atmosphere.

ORGONE PYRAMIDS TO FIGHT CHEMTRAILS

- Benefits of Negative Ions
- Cleans the environment
 - Promotes plant growth
 - Relaxing effect on the body

The most famous pyramid energy studies were the Russian research by Ukrainian scientist Alexander Golod. The University of Moscow – funded research granted the construction of seventeen multi-story fiberglass pyramid. The most recent construction (which recently blew down during a major storm) was 46 meters high and made from 55 tons of fiberglass! Since 1999, after five years of construction, it had attracted tourists, the curious and researchers. According to Golod, the fiberglass pyramid is capable of boosting the immune system to help fight cancer, AIDS, Alzheimer's disease, curing impotence and reducing the effects of radiation.'

What is also fascinating about these pyramids was the discovery of a persistent negative ion column coming from the apex of the structure extending into the upper stratosphere when observed by measuring equipment in both helicopter and science balloon. There is a constant electric field of 100 volts per meter, between the Earth's ionosphere and the ground. Like a large capacitor in an electric circuit, electrical energy is stored in the atmosphere, these large pyramids, and Earth's crust, where the ground and upper atmosphere are acting as the capacitor's conductive plates. With this in mind, are large pyramid structures electrically altering the local environment? The effects witnessed within these pyramids are certainly similar to the healing effects within Dr. Wilhelm Reich's orgone accumulator boxes.

Orgone accumulators and other orgone-based composites do not need to be so large to impact the conditions in the local environment. The layers of metal and organic material store potential energies that are both electrical and etheric in nature. This interaction somehow creates torsion fields from stray fluctuations in the environment, and the number of layers of metal and organic material within a volume of space determines the strength of the effect. The electrodynamic nature of this technology is only a part of a greater whole.
